ARTISAN LUXURY FIXTURES

Victorian Copper Slipper Bathtub with Clawfoot

WHAT MAKES THIS BATHTUB UNIQUE?

This tub features a rich, hand-applied antique finish on both the interior and exterior, providing a luxurious rustic patina. Each piece is entirely handcrafted, ensuring that your bathtub is a unique piece of art that cannot be replicated.

WILL THE FINISH CHANGE OVER TIME?

Yes, copper is a "living material." The hand-applied antique finish will naturally evolve with use, deepening in color and adding a unique character to the tub while maintaining its signature warm golden and earthy tones.

HOW DO I CARE FOR THE ANTIQUE COPPER SURFACE?

We recommend cleaning with mild soap and a soft cloth only. Avoid abrasive cleaners or harsh chemicals to preserve the patina and the handcrafted finish. Dry the tub after each use to prevent mineral deposits.

IS THE BATHTUB SUITABLE FOR A CENTERPIECE PLACEMENT?

Absolutely. This bathtub is designed to be freestanding and serves as a stunning centerpiece in open bathroom concepts, showcasing the beauty of the copper from every angle.

WHICH DESIGN STYLES DOES IT COMPLEMENT?

This tub pairs beautifully with Luxury, Rustic, and Victorian styles. It also creates a striking contrast in modern bathrooms when combined with marble or warm wood accents.
